If you are nervous, restless, irritable, sleepless or wake after hurried dreams, tired mornings, with a dull headache, bad taste in the mouth, sometimes discharge, and go about your employment without life, energy or ambition, desire to be alone, gloomy forebodings, a disposition to worry and fret about trouble ahead that never comes, spells of feeling afraid or uncertain, sometimes low spirits, you are suffering from nervous debility and exhaustion of nerve power, which may end in utter prostration, insanity and death.

If you have a great sense of weakness and weariness, with tired limbs, numbness, trembling, prickly sensations, cold feet and legs, you are advancing to that most terrible disease—Paralysis.

If your head aches, feel numb and tired, with strange sensations, loss of memory, and you think with difficulty or you are sleepless at night, with drowsiness and dullness during the day, the nerve and brain fatigue may soon run into insanity or death.

If you have any of these feelings, do not neglect them, or they will end in paralysis, insanity, prostration or death.

As you value your life, do not neglect these warnings. Time and experience have shown, and hundreds of standing and valuable cures have proved, that these diseases are perfectly and completely cured by DR. S. CLAY TODD, 16 North Division Street, rooms 1, 3 and 4, Grand Rapids, Mich.
